Sermon Title: A new look at: Worship

Messages: J. Rensford

Big Idea/Sermon focus:

- Who we are will determine what we do (*four-week focus*).
- Looked at practicals of how church will be running during COVID crisis.
- Touched on what giving is and isn't, and some ideas to grow our praise and worship lives in the current times.

Message / key study scripture: Psalm 150

- What is God saying to you through this Psalm today?
- Where do you think God would have you praise Him in the immediate weeks to come? What works best for you?
- What are the challenges you personally face with Praise and Worship (if any)?
- What is something new you are willing to try?

Questions:

1. How do you go with giving of your tithes and offerings?
2. If you have difficulties of any sort (e.g. Practical or theological etc.) discuss with your household / friend online.
3. What setup do you currently have (practically) so you can continue your giving, or start being a giver?
4. Discuss any feedback you may have about the online service on Sunday and relay back to your SG leader if relevant and possible.

Pray with each other accordingly. Feel free to do so online as well as with your household if you live with others.
